About Me

Since graduating from the University of Stralsund in 2000 with a degree in Business Information Technology, I've been developing software, mostly web applications using databases. My strengths lie in the ability to create solid technical concepts and to code backend logic; I feel comfortable with frontend code as well.

Work

Self-employed, since 2014

Exp360

Control Center/Backend for a VR solution (Ruby on Rails)

SVA

Tele-medicine web application (Java, Spring, Hibernate)

OmniTrail

Real-time UI for their micro-location technology (AngularJS, LeafletJS)

Amazers

SaaS-platform for communities (Ruby on Rails)

Kids R Kids

Web-based management tool (Ruby on Rails)

Pears Media

Web based campaigns for healthcare professionals (HTML5, CSS)

TrailStone Group

Desktop app for trading at the Deutsche Börse (Java, JavaFX, RabbitMQ)

Senior IT-Developer, Pixelpark AG, 2010 - 2014

Sparkasse Immobilien

As technical lead I have continuously developed new features in the frontend (PHP), backend, web service interfaces and supporting tools (Java)

Sparkasse

As the lead developer of a dev team I have developed promotional campaign websites with PHP, Cake and Symfony

Mercedes Benz

I have developed a web application used for searching nearby dealers using Ruby, Sinatra and MongoDB

Berlin Airports

I have built web services used as backends for the Android and iOS apps, including a push service and a passbook service (PHP, Zend, Ruby, Sinatra)

Senior Developer, bsmo GmbH, 2003 - 2010

Media-Daten Online / Zimpel Online

As head of a dev team I have designed the technical architecture of and developed a complex web application using Java and Spring

bsmo GmbH

I have architected and developed a web application used as a CRM tool by in-house call-centers (Java, Struts)

IT-Developer, IT-Administrator, Pixelpark AG, 2000 - 2003

I worked at projects using technologies such as Java, JSP, Struts, Hybris, SAP Java Connector, ColdFusion

Working as an administrator I have installed, configured and monitored server software (Solaris, Apache Webserver, Apache Tomcat, Bea Weblogic, etc.) for web sites such as www.sparkasse.de, www.barmer.de, www.bertelsmann.com, www.moneymaxx.de

Volunteer work/private projects

Immergut Festival

I have applied a new design to their web site every year since 2010, offered consulting and support with all online related matters.

2014 I rebuilt everything from scratch with Ruby on Rails: a content management system to fit their individual needs and a web site that is both fast and fun to use:

<http://www.immergutrocken.de> (Ruby on Rails)

mixkeepr.

With this project I was scratching my own itch: A way to archive my Discover Weekly playlists on Spotify. A first working prototype was quickly done in September 2015; at the time of this writing (March 2016), over 800 users have used <http://www.mixkeepr.com> so far (Ruby on Rails)

Pumps Of Berlin

This hobby project started in early 2015 as a crowd sourced map of locations with public bike air pumps: <http://www.pumpsofberlin.com> (AngularJS, Ruby, Sinatra)
